

The Inaugural Fire Safety Design Excellence Awards 2011

The prestigious Awards give recognition to the individuals, organisations and the project teams for ingenious design processes and solutions in overcoming project challenges in order to achieve a high standard in fire safety design of building projects in Singapore.

The Awards aim to:-

- inculcate a strong fire safety culture among building professionals in developing our built environment;
- give recognition to professionals, developers, building owners and project teams for fire safety engineering achievements; and
- provide an avenue through which competition for design excellence can be enhanced.

These Awards are to give recognition to Qualified Persons (QPs) and developers or building owners for attaining excellence in fire safety design. These Awards will be presented during the Awards Gala Dinner which will be held on the first night of the Fire Safety Asia Conference at Suntec Singapore. Representatives of the award-winning buildings will be invited to do a presentation of their award-winning designs during the Awards Gala Dinner.

There are two categories under Fire Safety Design Excellence Awards:

- Buildings with total construction costing less than S\$100 million;
- Buildings with total construction costing S\$100 million or more.

Award winners will also receive award certificates and specially-designed plaques, and the winning designs will be featured in SCDF publications.

These Awards are applicable to building projects completed and have obtained TFP (Temporary Fire Permit) or FSC (Fire Safety Certificate) between 1 January 2006 and 31 December 2010.

**Nominations must be made on the
Entry Form which should be submitted by 1700hrs, 10 June 2011 to:**

**The Secretary
